## WELCOME TO EASTERN.

For over 75 years, we've been rethinking how buffets work – and how they should look. What began with smallware and buffet holloware has evolved into some of the industry's most advanced buffet systems, trusted by hospitality professionals worldwide.

From our headquarters in Bayonne, NJ, we run a state-of-the-art 10,000 sq. ft. design studio, a full-scale US-based factory, and an expansive, fully stocked warehouse. It's how we design smarter, move faster, and deliver the innovative solutions today's hospitality industry depends on.

### Unveiling the Essence of Eastern Excellence.

At Eastern we believe great design does more than look good. It works hard, solves problems, and makes service simpler, faster, and better. Every product is engineered for ease of use, durability, and versatility – giving you designs that do more.

Sustainability is an essential part of our vision for the future. Our exclusive partnership with EcoBurner reflects that commitment – offering a safer, greener alternative to traditional buffet heating and setting a new standard in eco-friendly service.

This latest collection brings together everything we've learned in over seven decades of design and innovation. We're proud to present what's next for buffet service.

# Heat Lamps

Eastern Heat Lamps proudly stand tall, bringing warmth and brilliance to every buffet.

Now introducing the self-connecting heat lamp—effortlessly hooking onto the chafer base for seamless functionality. Whether single, double, or infrared, Eastern has you covered for all your heating needs.
